2018 YEARLY OVERVIEW

Hello 2018! A fresh new year awaits you with many opportunities to step into a career that is as practical as it is rewarding. This is a major year of setting foundations for your future and putting structures into place to support you in living the life you want to live and creating a career that allows you to channel your natural skills & talents into helping others in so many valuable ways.

GROWTH - Your main area of growth this year will be centered around creating a more efficient and productive daily lifestyle for yourself where you can finally better support yourself in doing all of the things you most want to do. Jupiter will be crossing out of your 5th house of Fun & Creativity and into your 6th house of **Work & Daily Routines** at the end of January which will help you transition from a period that was all about coming up with fresh, exciting ideas and into a time that is more about putting these creative concepts into a workable order in a way that feels good and makes sense. Over the course of this year, you may finally be able to embrace a new workflow that fulfills your needs for financial stability in a way that also has emotional substance.

In terms of Your business's growth, this is also a big year for cultivating sustainable systems that you can use to bring in money through your business efforts. You may provide new & exciting ways for others to pay you for your talents and become much clearer on the strategies you need to put into place to boost your bottom line as Jupiter moves through your business' 8th house of **Business & Finance**. Although Jupiter will naturally attract positive influences into your life to help you do this, the more work you put in to boost this area, the more you will receive in return for your efforts.

CHALLENGES - You are now entering into a new cycle in your personal life that will require you to become even more authentic in your dealings with others within relationships of all kinds as Saturn begins moving through your 7th house of **Partnerships** until Spring of 2019. This may involve removing people from your life that aren't supporting you as you get clear on how you *do* want to be supported and begin to make space to call mutually beneficial relationships into your life that actually have what it takes to sustain and satisfy you on every level. This is also the area of life that is known for 1-on-1 work with clients, so this process of up leveling your partnerships may also involve getting clear on the type of clients you want to work with, how you want to be of service to them, and what you need to receive in return. Although it may be difficult, it will be incredibly rewarding for you to reap the benefits by the time this cycle has completed.

Saturn is also moving through your business' 10th house of **Career & Legacy** along the same timeline that it will be visiting your own personal 7th house of Partnerships, which adds even more of an importance to getting clear on your 1-on-1 work with others and becoming very thoughtful about the impact your business is really here to make on the world as well as how you can use this business as a vehicle to support others in the ways *they* are most needing while still being very fulfilling for you as well.

JANUARY 2018 OVERVIEW

MONTHLY THEMES: As the start of 2018 kicks off, the Sun will be completing its cycle in your 7th house of Partnerships until January 9th when it switches into your 8th house of **Business & Finance** for the rest of the month. After you have taken some time to smooth any edges in your relationships with others, your mind will be very much centered around work and how you can go about earning money in more efficient ways. Start by setting a money goal you feel good about and then work backwards to decide on the strategies you'll need to employ to make it happen!

For your business, the Sun will be in the 10th house of **Career & Legacy** until it switches into the 11th house of **Community** on January 11th.
